

PROFESSIONAL

This Professional range of 8 superbly engineered machines is the one by which all others are judged! Over 300,000 are in use worldwide; in workshops, studios, schools and offices, where their robust construction is rigorously tested, day-in, day-out.

With cut lengths from 12" (305mm) to 54" (1374mm) each model features the unique chromed steel twin guide rails, silent glide action and all metal cutting head and end frames.

These smooth running Professional cutters are designed to withstand high volume applications and will cleanly cut virtually all flexible materials up to 3.0mm thickness. Fully guaranteed for 5 years. Each Professional is screen-printed with a very useful 10mm grid, 'A' size indicators and two additional metric/imperial scale bars. Full range of accessories available.

PROFESSIONAL

Model	Cut Length		Overall Length mm	Cut Capacity	Weight Kg
	mm	inch			
M12	305	12	471	3mm	4.9
M15	382	15	547	3mm	5.3
M18	455	18	620	3mm	6.0
M24	610	24	778	3mm	7.1

M36	914	36	1080	2mm	8.9
M42	1068	42	1234	1.5mm	10.5
M54	1374	54	1539	1.5mm	12.0

Each Model 382mm-W 95mm-H

EUROCUT

These 2 Eurocut models each offer the classic Rotatrim top quality build characteristics, at a budget price. Designed for medium volume requirements in the office or at school, both the 16" (425mm) and 26" (660mm) machines will cleanly and safely cut a variety of materials up to 2.0mm thickness.

With the same baseboard construction and 'built to last' feel of the flagship Professional range, the Eurocut will provide years of safe, trouble-free cutting. Fully guaranteed for 5 years.

Each Eurocut is screen-printed with a very useful 10mm grid, 'A' size indicators and two additional metric/imperial scale bars.

Model	Cut Length		Overall Length mm	Cut Capacity	Weight Kg
	mm	inch			
EC16	425	16	562	2mm	4.0
EC26	660	26	790	2mm	6.0

Each Model 345mm-W 100mm-H

DIGITECH

For fast, easy trimming of all ultra wide digital media, posters and encapsulations. These 2 new Digitech machines feature a smooth cutting action, and are based on the highly successful Technical series. Both models benefit from a self-sharpening cutting action and all-metal construction.

DIGITECH

Model	Cut Length		Overall Length mm	Cut Capacity	Weight Kg
	mm	inch			
DT1850	1850	73	2220	0.75mm	17.0
DT2500	2500	99	2870	0.75mm	21.0

POWERTECH/TECHNICAL

Our complete understanding of the stresses generated during heavy-duty cutting and the use of the most durable components has enabled us to design and construct this remarkable series of machines.

The 14 models in the Technical/Powertech range will each slice effortlessly through almost any flexible sheet up to 4mm thick. Additionally, these versatile cutters are equally at home with thin films and foils due to the unique, self adjusting triple roller cutting head.

With the range extending to a massive 99" (2500mm) cut length, the Technical (manual) and Powertech machines are perfect for display/exhibition applications, finishing of all digital media and fast accurate dead straight trimming of pop-ups, encapsulated posters, vinyls and banners.

The Powertech models have the cutting head electrically driven by a steel reinforced belt, via a foot operated pneumatic switch, thus leaving both hands free for speedy repositioning and faster throughput. Each Powertech machine is supplied with a comprehensive operating and servicing manual.

- Stainless Steel 1 1/2" square guide rail and all metal construction eliminates distortion.
- Self sharpening Sheffield tungsten steel cutting wheel and counterblade.
- Transparent clampstrip combines with rubber gripper for firm positive clamping.
- Extruded satin finish aluminium baseboard with parallel indents – strong and warp free.
- Two way cutting option by removing C.C. Plate.
- Powertech high speed version available.
- Comprehensive range of accessories.

Longer machines (1550 upwards) now supplied with unique extension rods which effectively double baseboard depth to 700mm – perfect for pop-ups.
